If knowledge is power, then time is surely money. That’s the idea behind the Podiatry Management Annual Buyers’ Guide: to save you time by providing you an easy and convenient source of all the major podiatric products and services you use in the everyday course of running your practice.

PART I

This year’s guide is divided into two parts. Part I lists company names alphabetically and provides pertinent address and phone/fax/website information, with additional product and/or service data for advertisers in this special edition.

PART II

Part II, which starts on page 127, lists companies or organizations according to the type of product or service they provide. Listings in many cases feature both company/organization and product name; thus, if you’re looking for Amlactin under “Pharmaceuticals: Moisturizers,” you can find this brand name even if you don’t know that Sandoz is the manufacturer.

HOW TO USE THIS GUIDE

Another cross-referencing feature makes it easier for you to find related products. For example, if you’re looking in the “Orthotics, Prefabricated” category, you will also find the cross-reference “See also: Insoles, Heel Supports, and Pads.”

If you have an office manual, we recommend that you photocopy these pages and add them to your source lists. That way, the next time you run short of x-rays, for example, you can quickly locate a supplier. Incidentally, we encourage you to support these suppliers. Collectively, they provide the advertising dollars necessary to support magazines such as this; and many, as well, contribute to podiatric student scholarships and research.

Part I: Who's Who

A

A STEP ABOVE HEALTH MANAGEMENT SYSTEMS
Rt. 72
Barnegat, NJ 08005
(877) 448-6233
www.apestopabovehealth.com
A Step Above Health Management Systems is a podiatry-specialized medical billing company for outsourced solutions. They offer comprehensive, personalized revenue cycle management solutions to maximize your practice's financial health, allowing you to focus on clinical care and managing your business. A Step Above provides medical billing management, including claims scrubbing, electronic and paper claim submission, payment posting, denial management, appeals, patient payment collections, and more. They also work the old accounts receivable that they inherit with a new client.
Nicole Arnold of A Step Above sites an example of their success as demonstrated by an Annapolis, Maryland client: "The client's former billing company was destroying the practice financially. Claims were not getting paid, there was no follow-up, and everyone pointed fingers at everyone else. Thousands of hard-earned dollars weren't being collected."
"Our company took over within a couple days of the initial phone call. Without any training on the client's practice management software, we learned the software quickly. We not only got the current claims paid, but we recovered close to $200,000.00 of old accounts receivable. We take great pride in providing each client with the personal service and dedication they deserve. We fight for every dollar and don't give up. Let us partner with your practice. We can reduce your revenue, and lower your accounts receivable. Most importantly, we will save you time!"

THE ACADEMY OF MINIMALLY INVASIVE FOOT AND ANKLE SURGERY [AMIFAS]
3707 S Grand Blvd, Ste. A
Spokane, WA 99203
(800) 433-4892
Fax: (509) 624-1128
www.amifas.org
Email: theacademy@amifas.org
The mission of the Academy of Minimally Invasive Foot and Ankle Surgery [AMIFAS] is the promotion and education of minimally invasive foot and ankle surgery. AMIFAS is an international association of multi-disciplined surgeons, including podiatrists, orthopaedic surgeons and allopathic physicians, who are dedicated to the correction of foot and ankle pathology utilizing minimally invasive procedures. The mission is to improve public health through education, ambulation, rehabilitation and research. Membership includes physicians in North America, Central America, South America, Europe, Asia and the Middle East. AMIFAS also has a mechanism in place to help physicians become MICS Board Certified.

Since 1993, physicians have chosen top-rated products from AMERX Health Care to increase patient compliance, boost positive outcomes, and grow practice profits. Long-known for the top-rated AMERIGEL® line of topical wound and skin care products featuring Oakin® (oak extract), AMERX Health Care has expanded their offerings throughout the years. A comprehensive suite of wound care products including HELIX3® Bioactive Collagen, AMERX® Wound Care Kits & Dressings, and the EXTREMIT-EASE® Compression Garment is also available to help you address today's wound and skin care challenges, enabling your patients to live a healthier life.

New programs are now in place to help you unlock your practice's hidden potential. AMERX Health Care's Turn-Key DME® Program provides the support needed to: streamline protocols, navigate Medicare DME requirements, properly bill for DME Wound Care supplies, and more efficiently dispense DME Wound Care supplies. Mix-and-match Turn-Key DME® Patient Direct (Zero-Inventory Dispensing) and/or Doctor Direct (In-Office Dispensing) to create the personalized DME dispensing program that best fits the needs of YOUR practice!

Contact your AMERX Health Care Account Manager at 800-448-9599 today to request your personal practice analysis and ask about available options to boost your practice growth.
At Anodyne, we’ve avoided the commercial vision of quick and easy comfort. Instead, we’ve returned to the fundamental roots of footwear—meticulous design, quality craftsmanship, and rigorous attention to detail. From a product and service standpoint, we’re the absolute best at what we do.

Our shoes are the lightest diabetic shoes in the industry, and feature all of the standard features of A5500 footwear (extra depth, protective toe box, stiff shank, strong heel counter). Additionally, all styles have soft microfiber linings that are treated with a proprietary antimicrobial spray before shipping.

We have a full-service lab handcrafting A5514 custom accommodative inserts, L5000 toe fillers, and any kind of shoe modification requested. Turnaround times on custom inserts and toe fillers is 24 to 48 hours. We’ve also created and released the first fully functional and portable iPad scanner app for accommodative inserts, eliminating the cost, shipping time, and headaches associated with impression foam.

You deserve the best partner for your shoe program.
for podiatrists and their patients with diabetes. Our mission is to show improvement in the incidence of ulcers and amputations and to prepare podiatrists for value-based reimbursement.

To accomplish this, Arche Healthcare is building an exclusive network of podiatrists called the Arche LEAP Alliance (ALA) and equipping members with Arche OPTYX, a proprietary tablet-based software platform. The ALA protocols and tools enable the DPM to identify, stratify and appropriately intervene in the care of their diabetes patients using evidence-based guidelines to drive evidence-based practice.

Arche OPTYX provides practices with data that allows them to manage their diabetes population more effectively and efficiently, and shows them how they are performing against standards and each other. Near real-time analytics allow measurement of outcomes and hold each practice accountable for their results.

The Arche LEAP Alliance protocol also includes home monitoring which extends the reach of the practice outside of the walls of the office. Leveraging technology in the patient’s home allows the opportunity for early intervention when a patient experiences a problem by driving them back to their doctor for evaluation and intervention.

ARIZONA AFO
4825 E Ingram St.
Mesa, AZ 85205
(480) 222-1599
Fax: (480) 222-1599
www.arizonafo.com
A member of OHI's growing family of companies focused on treating conditions and diseases of the lower extremities, Arizona AFO has been a premiere fabricator of custom-made ankle foot orthoses since 1994. Carrying on a tradition of innovation, excellence in manufacturing and exceptional customer care that began with company founder Ernesto Castro, Arizona AFO’s steadfast focus on individual patient needs and patient outcomes continues headlong into the 21st century.

Arizona AFO launched an entirely new product category and moved its industry in a less invasive, non-surgical direction with its patented Arizona Brace®. Often copied but never equaled, the Arizona Brace® has been proven in clinical trials to effectively treat PTTD (Posterior Tibial Tendon Dysfunction). Arizona AFO is also the exclusive fabricator of the Moore Balance Brace®, the Optimia Brace® as well as a complete selection of other superior quality custom devices for treatment of even the most challenging cases.

All Arizona AFO products are designed, developed, manufactured and tested in the United States.

COUNCIL FOR MEDICAL EDUCATION AND TESTING (CMET)
(336) 923-5064 www.COUNCILmet.org
Email: info@COUNCILmet.org
The Council for Medical Education and Testing (CMET) is the only organization of its type in the United States that is physician-specific in membership and was developed for the sole purpose of providing certification for physicians in wound healing. CMET certifies all prescribing physicians, MD, DO and DPM.

The CMET certification is recognized by organizations such as the Academy of Physicians on Wound Healing (APWH), the American College of Lower Extremity Surgeons (ACLES), the Israeli and Taiwan wound healing associations and many others. Thought leaders such as Allen Jacobs and Dan Davis (past president of APMA) have recognized CMET as the first and only organization in the United States that provides true parity with the same certification for MD as it does for podiatrists—an equal playing field for all physicians, and a model for future organizations.

CutMedix is the leading US distributor of STORZ Medical EPAT devices. Extracorporeal Pulse Activation Technology [EPAT], sometimes referred to as ESWT or Shock Wave, is an evidence-based, non-invasive approach to treating acute and chronic musculoskeletal pain. This proprietary technology is based on a unique set of pressure waves that stimulate the metabolism, enhance blood circulation and accelerate the healing process. Healthcare professionals who integrate EPAT earlier in their continuum of care find that they are able to get their patients better faster, reports Curamedix.

Benefits of this non-surgical treatment include no scarring, no risk of infection, no anesthesia required, no downtime and faster, easier healing. Curamedix products for podiatrists include the OrthoPulse Ultra (radial) and the DuoLith SD1 TT [focused shock wave]. The OrthoPulse Ultra acoustic pressure wave device combines Extracorporeal Pulse Activation Technology [EPAT], innovation and performance with unmatched clinical and economic value for treating acute and musculoskeletal pain.

The FDA-approved DuoLith SD1 TT is the next generation of Extracorporeal Shock Wave Therapy [ESWT], with focused Cylindrical-Source technology, as a nonsurgical treatment for pain associated with chronic proximal plantar fasciitis.

DARCO INTERNATIONAL
810 Memorial Blvd. West Huntington, WV 25701 (800) 999-8866 Fax: (800) 999-8866 www.darcointernational.com
Email: info@darcointernational.com
For over 33 years Darco International has been supplying the podiatric segment with quality post-operative footwear, offloading, and other lower extremity products. H. Darrel Darby, DPM developed the first modern post-operative shoe in Huntington, WV in 1985. Today his son, H. Darrel Darby II, oversees a company that is truly global in scope with locations throughout the world. Darco has been a strong advocate of podiatric education by donating over half a million dollars for student scholarships. We remain ever committed to the podiatric community and the industry. Our mission is to manufacture the highest quality foot and ankle products in the world.

Visit our web site at www.darcointernational.com to view our products, or contact us at 800-999-8866 for more information. Choose the company that is loyal to podiatry, choose Darco.

DIA-FOOT
3400 Fairlane Farms Rd., Ste. 7
Wellington, FL 33414
(877) 405-3686
www.dia-foot.com
Dia-Foot is much more than a diabetic shoe company. We offer podiatrists multiple ways to bring potential revenue streams to their practice.
Dia-Foot offers diabetic shoes from 14 manufacturers for those customers who participate in the Medicare diabetic shoe program. We offer shoes from New Balance, Dr. Comfort, and SAS, just to name a few. Dia-Foot manufacturers the A5514 diabetic inserts.
Dia-Foot is a diabetic shoe vendor for many insurance companies in Florida and around the country, including Humana. Your office has the opportunity to join our growing insurance network. By joining our network your office can get paid on diabetic shoe referrals we send to your office from Dia-Foot. Please email veronica@dia-foot.com for further details.
Dia-Foot is also the manufacturer of the Pure Stride line of professional foot products, including the new Pure Stride Flip Flops. The Flip Flops feature a deep heel cup, enhanced arch support and a declinated forefoot, helping to relieve heel and arch pain. Also available is the new Pure Stride RX full-length orthotic with memory foam.

www.dpm-airc.com
DPM-Aire offers the New-Aire line of air purifiers direct to podiatrists. These air purifiers are designed to remove the most dangerous health-threatening sub-micron-size dust particles and bio-aerosols from the treatment room and podiatric office environment.
These air purifiers take over where point-source nail dust vacuuming and dust masks fail. Published studies show that these vacuums still allow from 8 to 75% of nail dust to escape into the treatment room air for doctors, staff and patients to breathe. These studies also show that podiatrists suffer significantly higher rates of respiratory diseases. The most recent studies have linked the smallest of these particles to sudden MIs. Podiatrists who care about themselves, their families and staff place New-Aire units in all treatment rooms.

Established in 1916, the College of Podiatric Medicine is one of nine accredited podiatric colleges in the United States and is a four-year, graduate level medical college, granting the degree of Doctor of Podiatric Medicine. Currently, KSUCPM maintains an average four-year school enrollment of 425 students and typically graduates 85-100 podiatrists each year. The mission of KSUCPM is to educate students to be highly competent doctors of podiatric medicine who will excel in residency training. Having graduated over 6,000 podiatrists, KSUCPM understands that education is a lifelong commitment, and gives back to the profession by hosting continuing medical education conferences and alumni connections across the globe. For more information on KSUCPM and its events, visit https://www.kent.edu/cpm.

Fax: (800) 419-0772
www.langerbiomechanics.com

A member of OH's growing family of companies focused on treating conditions and diseases of the lower extremities, Langer Biomechanics has been a leading provider of lower extremity care solutions to healthcare professionals for more than forty years. Founded in 1969, Langer is the preeminent fabricator of superior-quality, custom foot orthotics. The company also distributes PPT, a proprietary, soft-tissue supplement for cushioning, durability and shock absorption; and other DME products.

Langer is renowned for its focus on product and technological innovation. The company's ScanCast 3D represents the leading edge in foot scanning technologies.

Langer's first priority is in partnering with its healthcare providers around the common goal of achieving optimal patient outcomes. The company's corporate philosophy is deeply rooted in perpetual innovation, industry-leading product quality as well as its highly-regarded and progressive educational support.

The company's enduring success and industry leadership is rooted in the recognition that the practitioner/laboratory relationship is a true partnership. Practitioners invite Langer to engage in the treatment of their patients. That uncommon trust and confidence is deeply valued by every Langer employee and the constant reinforcement of that relationship is the company's highest priority.

"We Find Fungus"

McClain Laboratories is a physician-owned and operated podiatric pathology and anatomic laboratory serving the USA from Smithtown, NY. Our full-service laboratory provides 24 to 48-hour turnaround on studies of all types of pathology, including dermatopathology, nail fungus, wounds, ulcers, cancers, warts, digital mucous cysts, bunions, hammer toes, small nerve fibers, and gout. McClain Laboratories uses proprietary methods to identify fungal infections, making false negatives a thing of the past.

McClain Laboratories specializes in histopathologic evaluation of tissue biopsies, with an expertise in skin, nail, and foot pathology. From specimen pickup to diagnosis, McClain clients are served by our friendly and professional staff dedicated to superior customer care.

McClain Laboratories' Medical Director, Dr. Steve A. McClain—a nationally recognized dermatopathologist and lecturer—supports the profession of podiatry by sponsoring educational programs and donations to the colleges of podiatry and local podiatry society chapters.

McClain Laboratories Features:
• Same-Day and STAT Service
• FedEx Express Pickup
• 24 to 48 Hour Turnaround
• Reports with color images, diagnosis, and ICD-10 coding

McClain Laboratories Services:
• Dermatopathology of the foot and leg
• Dermatoscopic evaluation of specimens

MD BUYING GROUP
(888) 863-5303
www.mdbuyinggroup.com

MD BUYING Group is a medical purchasing group started by physicians to increase the buying power for all physicians. Founded in 2005 by Joel Lerner, DPM, who understood that the savings advantage of buying medical supplies as a group resulted in greater purchasing power. MD Buying Group allows physicians to purchase all medical and non-medical supplies at a price far less than any single office is able, in an easy-to-use and secure online shopping experience. Since 2005 MD Buying Group has grown to nearly 4000 members and has introduced their own brand to bring costs even lower for their members. The group has exclusive partnerships with multiple companies, including PAL orthotics, allowing members to buy any product for as much as 50% less than typical catalog pricing. Members also enjoy additional savings on overstock items and weekly specials. There are no membership fees, so join over 3800 doctors for amazing savings.

20460 Grancery Pl.
Torrance, CA 90601
(800) 433-2469
www.medicoool.net

Medicool, a leading manufacturer of debridging drills to the podiatry community, offers solutions for every type of practice. Medicool believes that the hazard of breaching airborne particles generated from the debridement of fungus toenails is something that should not be taken lightly. Many DPMs and their assistants have breaching issues as a result of years of debridement procedures.

*Website under construction

Nature-Fit orthotics mimic the ideal profile of the foot (unlike custom orthotics) both at rest and in motion. Our proprietary, injection-molded, polymer design allows our orthotics to change shape the way the foot changes shape, allowing the arch to move downward appropriately (unlike rigid insoles) while preventing flattening (unlike soft insoles). A naturally optimal fit for your patients...and you! Benefits to the patient include: a thin design allows them to fit in existing shoes, strong material prevents throwing away an orthotic that does not last or does not work, and Nature-Fit are odor-free, anti-slip, easy-to-clean and durable. Benefits to YOU include: No need to create custom orthotics, two sizes with seven sizes each to fit your patient base, allows you to offer your patients the most effective orthotic solution available.

RX24 Quadstep system is an innovative and tailored approach to treating various foot types. The system uses a patented clinical algorithm that identifies and categorizes a patient's feet into one of 24 foot-types. A patient's foot-type will influence not only their gait but also the condition and pathologies that afflict them throughout their lives.

RX24 Quadstep system takes the concept a step further and simplifies the 24-foot-type medical model into six sub-classes known as quads that groups together four similar foot types. Each quad has its own specific foot and gait characteristics. These foot types include severe pes cavus, mild pes planus, neutral, moderate pes planus, abductovarus foot and severe planovalgus foot. These six quads specific functional orthoses are biomechanically tailored to that of a true custom prescription. To provide superior patient education, a quads-specific information card is included with each pair that features possible clinical symptoms, key foot attributes, gait characteristics and more.

The RX24 Quadstep system is easy to learn and can be quickly...
are fabricated with unwavering attention to detail and their comprehensive selection of brand name footwear sets them apart in both comfort and design.

BREATHE LIFE INTO YOUR PRACTICE!

There are many perks to an AAPPM Membership:

• 24/7 access to resources, tools, and more for all your daily needs.
• Have an issue you can’t find a solution to? Ask our experts!
• Discounted pricing to AAPPM conferences.
• Corporate discounts with sponsors, saving your practice money!
• Weekly Tuesday Tip emails
• Webinars

AAPPM offers opportunities to connect with colleagues and build encouraging relationships, learning from those who have been there and done that. Find out first-hand how we can help you change your practice and change your life. For membership information, visit us online at www.aappm.org. We look forward to welcoming you to the AAPPM family!

“I have been a member of AAPPM since 2008. From the weekly email newsletters to their comprehensive conferences, I love learning the pearls of wisdom and timely advice the AAPPM leaders share with the membership. My staff and I have implemented many of their ideas and as a direct result, my practice and patients have benefited from it. Great bang for the buck.” – Nicole Freds, DPM

Celebrating its 23rd year of success in the podiatric community, the Richie Brace® and its family of products continue to be the premium brand in lower extremity bracing. Often imitated but never duplicated, the original Richie Brace® is the preferred intervention for posterior tibial tendon dysfunction (PTTD) and peroneal reflexes. Richie Brace® products provide effective treatment of conditions and diseases of the lower extremities, SafeStep was co-founded in 2000 by Josh White, DPM, and provides dressings from your office. Providing a core value of aiding podiatrists in their formative years, he assisted over 1000 practitioners in navigating the complex DME supplier application process. Dr. White, a member of the APMA's Expert Panelist, personally shepherded the integration of podiatry into Medicare's DME system. In SafeStep's formative years, he assisted over 1000 practitioners in navigating the complex DME supplier application process. That care value of aiding podiatrists with Medicare's burdensome administrative requirements remains front and center today. SafeStep's "Worry Free DME" program utilizes a proprietary technology that ensures Medicare coverage while streamlining the billing and procurement process. SafeStep offers over 500 shoe styles from manufacturers including Apex, Brook's, DryDock, Hush Puppies, New Balance and Orthofeet. An industry leader in reducing fall risk, SafeStep has developed fall prevention protocols used by hundreds of podiatry practices nationwide and was integral in the introduction of the custom-made Moore Balance Brace (MBB). SafeStep is the exclusive distributor of Arizona AFO's full line of custom-fabricated AFOs and makes available a wide variety of DME distributed products.

S

SNS [SAFE N SIMPLE] WOUND CARE  
(844) 767-8334  
SNS-medical.com

With your current DME license you can create a new revenue stream and improve patient compliance by providing dressings from your office. Safe in Simple's Simpurity Wound Care Kits are now available in 1G and 30day kits. The Kits include a primary dressing of collagens, alginites, alginates and/or silver fibergel dressings, vascular banded secondarily gauze dressings, gauze clean-up sponges and a bottle of saline. Recommended for diabetic ulcers, pressure ulcers, stasis ulcers, post-surgical wounds and donor sites.

SMART ABI
(877) 275-8760
www.smartabi.com

The Smart-ABI with wireless Bluetooth technology is a one-minute test and is not operator-dependent. The firm recommends that podiatrists follow AHA recommendation to screen all patients at risk for PAD, as it has been reported that 75% of all patients are asymptomatic for PAD, and bill only the patients for whom you can demonstrate medical necessity.

The Smart-ABI testing can be performed by anyone in your office—it does not require reading any wave forms. Rather, it provides quantitative scores that indicate Non-Compressible, Normal, Acceptable, Borderline or Severe. Depending on these outcomes you decide whether to send them to the vascular surgeon or manage these patients' disease progression over time. The test includes blood pressure and body mass Index calculations qualifying for MIPS.

Smart-ABI Features
- Measurements based on the Pulse Volume Plethysmography: the most advanced smart sensors allow Smart-ABI sensing to 4.6 micrometers of mercury.
- Improved user error detection system: will alert the operator of any irregularities during the measurement process.
- Objective measurement: the specially-designed algorithm is based on the Plethysmographic techniques, which are independent of the operator.
- Repetatable measurement: Regardless of who performs the measurement, regardless of noise or office interface, the measurement result will always be consistent.

The Smart-ABI allows you to manage your patients' PAD rather than wait until it is too late. The direct result will reduce future surgeries and hospitalizations.

"The Smart ABI has seamlessly added another dimension to my practice by improving medical diagnosis and care," said Bruce Miller, DPM. "Patients are very impressed and appreciative."

Straight Arrow Products, Inc., continues to provide quality therapeutic products to podiatrists and their patients at an affordable price.

The current line of products includes Foot Miracle and Urea Care, both specially formulated to meet the needs of the podiatric patients and their doctors.

Foot Miracle has been a mainstay for the podiatrist for over 25 years and Straight Arrow reports that the success...Continued on page 124

of Foot Miracle is due to the formulation, performance and overall value that it provides to the podiatrist, staff and most importantly the patient. This success led to Urea Care, which is a 10% urea-based therapeutic crate designed for patients with severe dry, cracked skin, providing the same results as seen with daily application of Foot Miracle.

The Tetra Corporation has been and remains the leader in tolnaftate technology for 30 years. Tetra developed and patented Soluble Tolnaftate in 1989. Today Tetra provides innovative and clinically proven doctor dispensed topical treatments, skin conditioners and dietary supplements with a guarantee that supports the practice of podiatric medicine. Tetra’s brands include Formula 7®, Formula 3®, Fungilys®, CleanSweep®, Kameo® 20, Kameo® 6%, and CoQ10®. When you call Tetra a real person answers to give the medical practitioner the best service possible with a “one call resolution” policy.

Formula 7®, our most recent innovation, is the only paraben-free Soluble Tolnaftate antifungal microemulsion fortified with cosmetic ingredients and bactericidal agents. The oil phase is comprised of jojoba oil with Soluble Tolnaftate in the keratin to the site of involvement to increase the flux of tolnaftate through keratin to the keratin to the site of involvement and provide bactericidal properties. Tetra is a proud supporter of podiatric medicine and is a frequent exhibitor at conferences nation-wide. Call Tetra today at 800-826-0479 and you will be impressed.

Frankincense & Myrrh Neuropathy delivers fast temporary topical pain relief from burning, shooting, prickling, tingling pain and numbness caused by neuropathy, guaranteed. In fact, it has helped so many that Wise Consumer Products guarantees pain relief or they’ll issue a refund, no questions asked.

Frankincense & Myrrh Neuropathy is a non-prescription, no-side-effects option for neuropathy pain relief. Without the side effects that accompany many pain relief solutions, patients can return to a more active life.

The safe, non-drowsy plant extract formula blends homeopathic ingredients in a base of sunflower oil and 10 essential oils. The rubbing oil formula provides optimal transdermal delivery, allowing quick penetration to calm throbbing nerve endings and ease pain. Find Frankincense & Myrrh Neuropathy in the diabetic care aisle at Walgreens, CVS, Walmart, Meijer, Sprouts and online at Amazon.com. Visit frankincensemyrrh.com to download a $3.00 off product coupon and to learn more about Wise CPC.

Fax: (815) 455-4732
www.xcelxray.com
X-Cel X-Ray Corporation has expanded their line of easy-to-use podiatry x-ray machines. Models are available for film, CR and DR.

The newest easy-to-use feature is the patented Tilt-Head which eliminates the need to rotate the patient for the DP/AP view. This is cleverly accomplished by simply tilting the x-ray source.

No need to turn the patient or rotate the arm for AP views, and no need to readjust the collimator for lateral views (Model: FB-715 NT).

Wheelchair patients are accommodated easily without having to leave the wheelchair. This feature addresses the spirit of the ADA Tax Credit Form #8826, which must be approved by an accountant.

All x-ray units are made in Crystal Lake, Illinois with dedication to maintaining the X-Cel X-Ray performance standard, starting with the first units in 1950 for the Illinois College of Podiatric Medicine.

WHY TREAT ALL FEET THE SAME?

Try our REVOLUTIONARY family of pre-fabricated foot orthoses for ages 1-101

QUADRASSTEP SYSTEM®

- Custom to Foot Type
- Ready to Dispense
- Cost Effective
- No Casting

Don’t treat a flatfoot with a flat orthotic!

- High medial and lateral flanges for more control
- UCBL-Type design with 30mm heel cup depth
- Medial Rearfoot posting and skive
- Gait Plate models available - to reduce in-toeing!
